DETAILED ACTION

Drawings

1. New corrected drawings are required in this application because of the failure to submit replacement sheets (the proposal submitted February 13, 2004 should have been labeled "Annotated Marked-up Drawings" under 37 CFR 1.121(d)(1) but is otherwise acceptable). Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

Claim Objections

2. Claim 5 is objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. Claim 5 omits the radiation source and sample location of claim 1 and thus does not further limit the parent claim.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claim 4 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 4 recites the limitation "the electronic read-out circuits" in line 3. There is insufficient antecedent basis for this limitation in the claim. Claim 1 establishes only a circuit in the singular at line 12.

Response to Submission(s)

5. The amendment filed February 13, 2004 has been entered. The failure to address the objection to claim 5 or the rejection of claim 4 is non-responsive under 37 CFR 1.111(b).

Allowable Subject Matter

6. Claims 1 and 5 are allowed.

7. Applicant's arguments, see page 5, filed February 13, 2004, with respect to claims 1 and 5 have been fully considered and are persuasive. The rejection of claims 1 and 5 has been withdrawn.

Conclusion

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
